## WORK EXPERIENCE

### Frontend Developer (Full Time)

#### WebColonizer Noida, Uttar Pradesh | 2025 January (Working)

I'm a **passionate Front-End Developer** with expertise in **React.js, Next.js, and React Native**, dedicated to delivering **innovative, user-friendly solutions**. At **WebColonizer**, I specialize in developing **scalable, responsive websites** that provide seamless user experiences. Combining **creativity** with **technical skills**, I ensure **clean, efficient, and high-performance code**. Always striving to push the boundaries of **design** and **functionality**, I aim to elevate each project I work on.

### Frontend Developer (Intern)

#### Script Studio Pvt Ltd, Delhi | 2024 August to 2025 january

With extensive experience in Node.js, Next.js, React.js (CLI), and React Native, I have successfully delivered numerous live projects that significantly boosted company productivity and growth. I developed a feature-rich dating app and contributed to scaling business operations, while also building ecommerce websites with responsive, high-performance designs. My expertise lies in driving innovation through robust, scalable solutions that push business growth forward and ensure seamless user experiences.

### Web Developer (Intern)

#### Namrate Universal Pvt Ltd, Delhi | 3 months, 2024

Developed dynamic websites using **HTML, CSS**, and **JavaScript**, ensuring responsive and high-performance designs. Collaborated with senior developers to troubleshoot issues and optimize website functionality for better user experience.

## PROJECTS **Responsive E-commerce Website**

- Developed the frontend using **Next.js** for **server-side rendering (SSR)** to ensure fast performance and SEO optimization.
- Styled the interface with **Tailwind CSS**, creating a fully responsive and mobile-first design.
- Implemented dynamic product catalogs, real-time shopping cart, and an intuitive checkout process..

## School Management Dashboard

- Built the **frontend** using **Next.js** to ensure fast load times with **server-side rendering (SSR)**.
- Utilized **Tailwind CSS** for building a responsive, clean, and accessible UI for managing school data.
- Integrated **Chart.js** for real-time data visualization of student attendance and performance..

## E-Buisness Website

- Built a **responsive Next.js website** with 5 country-specific dynamic sections, rendering **80-90 pages** seamlessly.
- Created a **customized Slick Slider** in the header, enhancing interactivity and delivering a **client-pleasing solution** ahead of schedule.
- Designed the entire layout, including **header, footer, and dynamic content**, using **Tailwind CSS**, ensuring scalability and maintainability.
- Delivered a project with **cross-browser compatibility** and an **engaging user experience**, showcasing strong creativity and technical expertise.
